## A VERY QUIET DAY

The Year Starts Slow in Marine Matters.

#### A NEW LIGHTSHIP IS COMING

The Roanoke Sails Tomorrow Forenoon -The Steamers Senator, R. D. Inman, Johan Poulsen and Herm and German Bark Schurbeck Cross to Sea-Notes.

The Roanoke will leave Portland tonight for San Francisco and San Pedro. She will prrobably leave here early tomorrow forenoon.

The British steamer Herm went to sea yesterday morning at 9:40.

The steamer R. D. Inman, lumberladen, came down the river during Tuesday night and left out 9:20 a. m. yes-

The steamer Senator, arrived from Portland late Tuesday night and left for San Francisco at 8 o'clock yesterday morning.

The German bark Schurbeck left out Europe.

The steam schooner Johan Poulsen went to sea yesterday morning with a cargo of lumber for San Francisco.

The United States steamer Mathloma has been called to Portland by the engineering department. She will be used in clearing away the sunken portion of the wrecked steamer Annie Comings.

is wheat laden, and bound for the United The address of the negro's counsel, ap-Kingdom for orders, has been laying in pointed by the state, was remarkable. the lower harbor for the past 12 days Counsel said nothing about saving his awaiting an opportunity to get to sea. client, but appealed to the jury to bring She is drawing 25 feet and will get out about prohibition to save other flegroes when the bar is smooth.

The steamer Northland arrived down from Portland at 8 p. m. last night and She has a good cargo of lumber and several passengers.

for Coos Bay this forenoon early.

The Lurline came in yesterday evening with a good lot of passengers and a fair freight. Capt. Larkin reputrts having passed some wreckage of the tug Annie Comings on his way down. The stern, rudders and wheel, bottom up, are stranded on a sand bar opposite Reeder's Landing, about five miles below the mouth of the Willamette. The river, at Portland is falling and the current slacking considerably. The Lurline slacking considerably. The Lurline good news about New York's popula-brought down the body of Mrs. Woods, tion. Happy New Year to the City Hall which will be buried today.

The four-masted schooner King Cyrus left up river last night at 6 o'clock.

It is announced that within a few days the new lightship No. 88, which was built for service off the mouth of the river, will start for this port, She will come under her own steam and will not be accompanied by an other vessel.

Yesterday being a holiday, reports from North Head were as on Sundays, stituted the meal of the little black meagre, the last report being received here at 5 p. m. At that time the wind was from the southeast blowing 50 miles at 10 o'clock yesterday morning for an hour, rain was falling and the bar was rough and thick. No vessels were reported passing either way nor any

## SPEAK TO WELSHMEN

Governor Hughes Addresses First Gathering of Cymri.

**CULTIVATE SENSE OF HONOR** 

Mistake is Made of Supposing the Government is Everything-Men in Power Are Human Beings-Would Purge Administration of Selfish Interest.

UTICA, N. Y., Jan. 1.-Governor Hughes last night presided over and made a speech at the first session of the Eisteddfod, the annual big gathering of the Welsh people of this section, Governor Hughes said:

"Let us tonight as we say goodbye to the year 1907 and to the duties and responsibilities of the year 1908, resolve each for ourselves, by the cultivating that sense of honor and self respect without which all else fails, to make possible the realization in this country of ours, all those things which our fathers prized and to make citizenship in this country of great advantage and to mean wider importance and a fair equalization of benefits than it has ever beretofore meant.

"We often made the mistake of supposing that government is everything. My friends government is what the men who govern put into it. Government is a system. The character of administration is that upon which the success of governmental system must depend and the administration of government will reflect the ideas which the community entertains in its ordinary compiled by the Board of Trade of this business and that quality of character which it permits in the ordinary walks of life. You cannot expect men to be make it evident that the territory of changed over any because they are Arizona has easily led all other dis chosen to office. They are human beings tricts of the world in the production of and will carry into office those ideas of copper in 1907. The total value of the their duties to their fellow men and year's output is estimated at \$61,000 .- those conceptions of what honor demands which they have heretofore entertained in their ordinary work. And the one thing that we need more than anything else in this country is that feeling on the part of every citizen of self respect and devotion to the duties which his particular place in life devolve upon him, so that neither friendship nor avaraice nor love of gain, nor opportunity to promote amibtion will ever deflect him from the course which toria. Drop in at any time and see the his own conscience tells him is right.

"Every man who is charged with the lar place and you will be satisfied that, party serves the interest of the entire and a quiet talk helps to pass a pleasant

"More than anything else we want to surge administration of all efforts to serve any selfish interest, whether it is political or capitalistic.

"The government is the government of the people, for all people and there should be no vesting or perversion in the interest of any particular part of the people as opposed to the welfare of

REVOLUTIONIZE MEDICINE.

Sound Vital Organs of Animals to b Placed in Man.

CHICAGO, Jan. 1 .- Medical science soon is to accomplish the transfer of sound vital organs and tissues from the lower animals to man. The substitution of healthy organs for the diseased parts of the human body wil be made possible through the new experimental surgery and vivisection, and will revolutionize modern medicine. The successful transplanting of arteries from one animal to another is the first step towards this

These are the conclusions drawn by Prof. Simon Flexner of the Rockefeller Institute for Medical Research in a paper on "Tendencies in Pathology." written by him for presentation to the American Association for the Advancement of Science, and read yesterday befor the Physiological Section of the So ciety at the University of Chicago by Prof. Ludvig Hektoen of the University. Prof. Flexner's paper also contained accounts of a series of experiments on rates and mice performed by himself and his associates, leading to important discoveries concerning the biological conditions of tumor growth. Pathological problems have been enormously af ected by recent experiments in vivisection, according to the New York scientist.

WAS A QUITTER.

SALT LAKE, Jan. 1.-Charlie Williams, of Rock Springs, quit at the end of the ninth round of a 20-round fight, today, with Rube Smith, of Denver.
